An apertent and Stomachle preparation of IRON purified of Oxygen and Carlon by combustion of Hydrogen. Sanctioned by the highest At clical A. thurities, both in Europe and the United Extates, and prescribed in their practice.

The experience of thousauds daily proves that no preparation of Iron can be compared with it. Imperities of the blood, depression of vital energy, pale and otherwise sinkly complexions indicate its necessity in almost every conceivable case. In Nervous Affections of all kinds, and for reasons familiar to incided men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstitute cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

In unchecked Distriben, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss offlesh and strongth, debilitating cough, and remittent heeting, which generally indicate Inceptent Consumption, this remedy has allayed the alarm of friends and physicians, in several verygratifying and interesting instances. In Secrotulous Triberculous, this medicated iron has had far more than the good effect of the most cautiously behanced preparations of iodane, without any of their well known liabilities.

One thing I must mention particularly. The editor is constantly warning his readers against humbrys, telling how sharpers take the advantage of people. ## VOTE THIS MORNING.

In order to save the Wide Awake Rallying Committee a deal of unnecessary labor, let EVERY Republican deposit his vote before ONE O'CLOCK.

### WHAT FREEMAN

. Wants to cast a negative vote? Not rbr anybody, but only AGAINST Lincoln. Fusion voters can only say who they do wood want, they cannot express their Presidential preferences. Poor fellows! Better by far vode for somebodul sav. for indential preferences. Poor fellows! Better by far vote for somebody, say, for instance, the Rail Splitter.

WHAT CONSERVATIVE CITI-ZEN wishes to see the present Presidential Contest extended to the fourth of next March by a fullure to elect Lincoln, with its attendant train of agilation, depressed public circlit, and stock gambing Democratic Panie? Friends of Order, Rally 1 and tranquilized the whole country. It To-day is Lincoln elected!

# THE UNION !

Remember, Electors of Newport, that the Republicans are the ONLY PARTY who do not threaten disunion if their candidate fails of success! The Bell, Breckenridge and Douglas fusion of New York talk treason that if enacted would hang them as high as Haman !

NOTE THIS FACT!

No man has yet found aught against Abraham Lincoln of Illinois 1 No enemy; not even Douglas, can fail to admit that hu is a man possessing sterling qualities of head and heart. He is honest, fearless, eloquent, brave, has a vigorous and, well stored mind, and is honest hearture. Who is no doubt that the Union sentiment in will not vote for him rather than hydra-the whole South largely preponderates headed fusion? headed fusion Para (a) , diameter

### CHOOSE YE.

FUSION, the present popular candidate for President, means BRECKENRIDGE alone, for it is now clearly demonstrated that Liouquan will have not more than a single State, (Missourl,) that BELL, having lost Kentucky and Maryland, will be un likely to carry a single State. While BRECKENBIDGE will carry every Southern State except Missouri and DELEWARE, which last Lincoln will have.

Friends of Douglas and Bell, your can didates are counted out. Who will you choose, HONEST OLD ABE LINCOLN or JOHN C. BRECKENRIDGE?

## FREEMEN OF RHODE ISLAND.

Are you willing to give your votes to a party who threaten disunion in case of their failure to elect their candidates, or rather of a Republican anecess?

Are you willing to aid and abet the Democratic and Fusion talkers of Treason? Are you willing to kiss the rod that smites you? To sid the scoundrels who gamble in stocks at the expense of widows: of orphans, and of the public credit, to carry out selfish political designs, and pocket the plunder

Let the indignant NO that will rise to every freeman's lips, of whatever party, be emphatically pronounced to day at the ballot hox.

EVERY VOTE COUNTS. In 1856 there were four million, forty-nine thousand, two hundred and four votes cast,

This year Fusion, (i. e. Bell, Breckinridge and Douglas) will have about 2,000, 000 votes, all together, they can hardly exceed that; now let us see if LINCOLN cannot beat that! He will be elected, so much is certain—but cannot he have a majority of all the Votes? We believe be Committee and the control of

Wolk for the Raitsplitter of Springfield. This is the way many of the warmest friends of Douglas in the State are beginning to reason, and we presume that the Little Giant himself would, under the circumstances approve their logic. We know that he would prefer to see Lincoln elected to having Breckinridge elected in the House, or Lane in the Senate; and if Lincoln is not elected by the people, we have no doubt whatever that Jo' Lane will be the next President.

The only candidate who can derive any benefit from the success of the Fusion ticket in this State, is Mr. Breckinridge, and et in this State, is Mr. Breckinninge, and the only purty whom it will satisfy is the Slave Code and Secession party. Bell and Douglas are both out of the question; especially the latter. What Douglas man, or what patriotic Bell man one desire to protract the present agitation and the present disturbance of commerce by voting so as to throw the election into the House of Representatives? Who would wish to be responsible for the cylis which that would to coasion—the corruption, the guarrels, the responsible for the evils which that would be consistent the corruption, the quarrels, the brawls, the possibe bloodshed? The following is an extract from a speech delivered in Springfield, Lilinois, in 1849:

"The Missouri compromise has been in practical operation for about a quarter of a century, and received the sanction and ap-probation of men of all parties in every sec-tion of the Union. It has allayed all seciealousies and irritations growing To day is Lincoln elected!

All the evidences of public opinion seemed to indicate that this compromises ion seemed to indicate that has compoun-ise had been canonized in the bearts of the. American people as a sacred thing, which no rubbless hand would ever be reckless enough to disturb.

Does the render recognize this? It was spoken by no other than Stephen A. Dongias, whose platform is the inexpediency, the injustice, the unconstitutionality of that compromise.

The Colone's Hopirit." having more than the needle number of feet it was suggested the used number of feet it was suggested that she was going on all fours." As the Col. has taken open ground in layor of the roopening of the slaye trade, we may soon expect to hear of the "apirit" having the spare foot on the African coast.

We submit to sour Whig readers the following emphatic declaration of HENRY

You cannot put your finger upon any part of the Constitution which conveys the right or the power to carry slaves from one of the States of the Union to any Territory of the United States. Nor, Sir, can I admit for a single moment that there is any separate or distinct right upon the part of the States, or, individual, members of the States, or, any portion of the nearle of the CLAY States, or any portion of the people of the United States, to carry playes into Territo-ries, under the idea that those Territories are held in common between the several States.

And now the ask what is there to prevent any Northern man who loves his country, from reliterating the determination of Daniel Webster, who said :-

of Daniel webster, who said:

"Aly, opposition to the further extension of local Slavery in this country, or to the increase of Slave representation in Congress, is general and universal. It has no reference to the control of the c ence to limits of latitude or points of the compass, I shall oppose all such exten-sion and all such increase, in all places, at and and an soun increase, in an places, at all times, under all circumstances, even against all inducements, against all sup-posed limitation of great interests, against all combinations, against all compromises.

There is nothing to present a real believer in Popular Sovereignty from voting for Lincoln and Hamilin. Indeed, Lincoln is, the conly Presidential candidate whose election, is possible who is not plagged against Popular (Edvereignty. Let the earnest friends of Mr. Douglas bear this in bind. in mind.

From Washington.- The correspondent of the New York Tribune writes :

"There seems to be a determination of the seceders to create a panic. Business men here complain that the Metropolitan Bank to day refused to give drafts on New York. This afternion it is stated that two York. This atternation is stated that we have suspended payment. That will do more to kill the speeders than anything else. By intending to strike the north, they hit the south.

The Star, so long a hitter secession paper, contains to day, quite a sensible article. It says that the only hope of peace lies in the generation of a confidence throughout the south that Mr. Lincoln's administration cannot fall to be conservative upon the always question and Mr. Lincoln upon the slavery question, and Mr. Lincoln can, and he only can generate such a con-

Radical secessionists declare that they will not go for a southern confederacy which shall include such States as Delaware, Maryland, Virginia, Kentucky, Tennessee and North Carolina. The cotton States desire the reopening of the African slave trade for cheapening labor, and it is the in-terest of the before mentioned States that terest of the perore mentioned States that rules slaves for sale, to suppress the trade and keep out African competitors. Hence it is contended that a confederacy composed of all the southern States would immediately find slavery as great a disturber in its midst as it is in the present one. The news from California has consider-

ably discouraged the friends of Senator Gwin. They now give up his election.

# DOUGLAS ORGAN ON THE PRESENT ASPECT OF THE CAN-VASS-DOUGLAS MEN URGED TO VOTE FOR LINCOLN-HIS ELEC-TION PREDICTED BY A MILLION MAJORITY.

Rend, Donglas Men, Rend! [From the St. Paul Ploneer and Democrat.] We are an daily receipt of letters from political friends, filled with anxious inpontical friends initial with anxious inquiries concerning the present state of the Presidential question, and desiring an expression of our views, as to the probable influence of the election of the Ninth upon the prospects of candidates and with reference to the various platforms of principles really at issue before the people, and which are to be practically decided at the polls. We do not healthte to respond to these in-quiries, and the less so because it is a part of our duty to treat of such matters, con-didly and frankly, even in the absence of

In the first place, then, we think the result of the elections in Pennsylvania, Ohio, and Indiana demonstrate, beyond all reusonable ground for doubt, that those States will go for Lincoln in November, and bu will go for Linsoln in November, and by vastly increased ingrotices. The disgustingly corrupt scheme of fusion which was entered into, partially in Ohlo and Indiana, and completely in Pennsylvania, has been repudiated by the people of those States emphatically and justly. It cannot be assumed that the people of other States in which the canvass has been made up uccording to the fusion programme, will act with any less honesty and intelligence, when the time comes for them to vote.—
We think, therefore, that New York will We think, therefore, that New York will we thurk, therefore, that New York will follow in the wake of her sister Middle States, with a majority of from one to two hundred thousand against the fusion outrage; and we think further, that the people of that State will vindicate their people of that State both bindicate their reputation for moort honesty and political decency by such a vote. And, inasmuch as the poisonous, influence of this Fusion Upas has been extended beyond the States in which it was planted, demoralizing the Democracy, destroying their hopes and paralyzing their efforts, we CANNOT BELIEVE otherwise than that the WHOLE NORTH WILL GO FOR LINCOLS—rendering the vote of the Free States, for the first time in our history, purely sectional in its

character. 12.7(19.4).
In the second place, we think the influence of the elections of the Ninth will be locastionalize the vote of the Sauth. The Bouth must view the results in Penrsylvania, Ohio, and Indiana, as determining the election of Lincoln. The natural inpulse of the Southern mind will be to meet Northern radicalism with the radicalism of

Its own section. There is not time enough left to organize a new conservative move-ment in the South of sufficient strength to ment in the South of american particular combar and conquer the sectional particular which, already excited will be inflamed to madness by the elections of the Nisth.—
The friends of Daugias will not ment there with any heart, because they cannot be the property of the look for a northern response in a solitary e.ectoral vote. The South cannot unite on e.ectorsi vote. I he South cannot unite on Bell, because running on no distinctive plat-form, support of him would mean nothing and determine nothing. We may, there-iore, expect to see every Slave State go for Breckinridge

If these premises are correct, Douglas, and the principles which he represents are, practically speaking, no LONGER AT 185DE IN THIS CAMPAIGM. The canvass is reduced by indications which are prophetic, both in their tenor and force, to a contest between Lincoln and a Free Code on test between Lincoln and a Free Code on the one hand, and Breckinridge and a Slave Code on the other. This is a result which all who cherish the peace and harmony of the Union must deplore; but, deployable or not, it is a plain fact, which cainot be gainsayed or obliterated, and which should therefore, he looked at and actad upon gameayen or conference, and want should therefore, be looked at and acted upon as such, frankly and manfully. And being a fact, the voice of the North in the exprestact, the voice of the North in the expres-sion of its sentiments at the polls will not be uncertain. A million majority will show the fidelity of the Northern masses to the instincts of their section, when these are appealed to by an issue which cannot be avoided or delayed.

The Northern Democracy are not res-poneible for the sectional character which the canvass has assumed. It has been prethe canvass has assumed. It has been precipitated by the ultraists of the South-Taking its birth in the jealouses of South-ern politicians against the manliest states—man of our times, the movement has grown up from its ignoble beginnings in personal hate to its present proportions of warfare upon civilization and of treason against the state. They who have thus sown the wind must reap the whirlwind. The ultraists of the South must be extirpated. Usual this is done there can be neither national peace nor national prosperity. We had hoped is using there can be research matterial poster in mor national prosperity. We had hoped this might be achieved through the agency of Douglas, in the present campaign. That hope has vanished. Yet, regarding it as the first great act needful to be done, we shall great its accomplishment with satisfaction through any agency that Providence may appoint.

Battle Creek, Mich., Dec. 21st, 1858.
Prof. Wood: Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an cruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stulf for caps, neither have I heen able to do them up, in consequence of which my head has suffered extremely from rold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar tottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though chort; it is also coming in all over my head. Feeling confident that anather large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee woulds not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture leclaration—"the reward is to those that are kind to the widw and the fatherless"

Phor O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown, to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scaip was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the flate of Indiana, my more essual acquaintances were not so much at a loss to discover the cause of the enange in my appearance, as my more intimate acquaintances were to recognize me at all

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored. I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1867, your Restorative was recommended to me by a druggist, as being the most reliable Heir Restorative, and aga result, have a trick coat of very soft black hair, which no money can boy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquamtances, who, I am hap y to inform year are using it with like effect. Very respectfully, yours,
